

Cable markers, CM-SCE-TP, military grade tie-on cable markers

Die CM-SCE cable markers are flat, rigid, non-adhesive labels that can be used to identify large cables and wire bundles in environments such as military and aerospace. Marker tags are applied to cables or wire bundles with cable ties. CM-SCE-TP markers are resistant to many fluids, lubricants and solvents used in various industries such as mass transit, industrial, oil & gas, railway, military and aerospace. These identification sleeves can be printed by thermal transfer printers.

Product facts of identification sleeves CM-SCE-TP

- EN-45545-2 approved
- Thermal transfer printable
- Highly flame resistant
- Highly resistant to abrasion, fluids, lubricants and solvents
- Easy installation with cable ties

Temperature

Operating range	-55°C to +135°C
Recommended ribbon	1966 Ribbon

Specifications and approvals of identification sleeves CM-SCE-TP

- EN-45545-2, R24, HL3
- NFPA130
- MIL-STD-202, Method 215
- UL MH26328
- SAE AS5942
