

Cable markers, HLX, halogen free markers

HLX cable markers are made from zero halogen, low smoke, low toxicity, radiation cross-linked, UV stabilized polyolefin sheet, formed into punched organized cable markers on a paper carrier. They are used for identification of cables and wire bundles by computer-based printing onto markers. Markers are attached using cable ties. HLX markers are ideal for applications where limited fire hazard characteristics are necessary.

Product facts of identification sleeves HLX

- EN-45545-2 approved
- Thermal transfer printable
- Zero halogen
- Low toxic fumes
- Low smoke
- Self-extinguishing
- Resistant to key industrial and rail fluids

Temperature

Operating range	-40°C to +105°C
Recommended ribbon	1966-Ribbon

Specifications and approvals of identification sleeves HLX

- EN45545-2, R22, R23, R24, HL3
- MIL-STD-202, Method 215
- NF F 16-101, A1
- SAE AS 5942
- BS6853 vehicle cat 1a
- London Underground 1-085 A3

Dimensions in mm

Part Number	Marker height	Marker length	Title block length	Colour
