

## LEB labels for laser printers

LEB labels are made for printing with laser printers. They are delivered on DIN A4 sheets. The high resolution and rich in contrast printing layout provides a high-quality standard.

Specially designed laser printable material for product, logistics and industrial variable information applications. It can be used in address labelling or other information labelling with difficult environmental conditions. They are ideal for labelling circuit boards, for general-purpose component or panel marking, barcode printing and a wide variety of other applications.
