

Panel Label PL

A cost effective, commercially attractive replacement for engraved labels using a high performance, thermal transfer label with a foam backed adhesive. Our Panel Labels are suitable for on-demand printing. Ideal for use with high definition graphics and barcodes. These are suitable for indoor and outdoor use and conform to the durability specifications of the UL969 Marking and Labelling standard. It is available in white or silver, with other colours possible on request. Compatible with all TE thermal transfer printers and data input using the TE WinTotal software.

Product Facts

- Thermal transfer printable
- Temperature Range: -40°C to +80°C
- Saving of product and install costs compared to engraved labels
- Clean creation and installation process
- Suitable for on-demand printing
- Able to create and print high definition graphics and barcodes
- Indoor and outdoor use
- Conforms to UL969 marking and labelling specification

Specification

- UL recognized PGJI2 and PGJI8 – File MH17292:

PL-9 for Gloss White

PL-8A for Satin Metalized

Wärmeschrumpftechnik
