

## EET-...P-9 white polyester labels for thermal transfer printer

The EET-...P-9 labels for thermal transfer printers are made from white polyester with a durable acrylate adhesive. The main fields of application are labelling of circuit boards and components with barcodes as well as general labelling applications, where you need yellow labels with high durability.

The EET-...P-9 labels are resistant to a multitude of solvents. The high printing quality will be preserved.

<b>Temperature</b>	
Operating range	-40°C to +150°C
<b>Printing information</b>	
Printers	TE3124-Printer (thermal transfer) T200-Ident-Printer (thermal transfer)
Printing ribbon	TTB-110SC/300
