

T2212 Printer (Thermal Transfer)

T2212 is a robust Industrial thermal transfer printer with 300 dpi. This budget thermal transfer printer was designed specially to print TE Connectivity labels, cable markers, heat shrink tubes and identification marker sleeves. T2212 is a light weight and low cost printer. This printer is available with or without printing software.

Features

- High accuracy printing
- Easy to use
- Full colour touch screen
- Light weight

Specifications

Print definition	300 dpi, thermal transfer
Electrical requirements	100 - 240 V ~ 50 / 60 Hz, PFC
Print width max.	105.7mm
Label width	5 – 120mm
Backing paper width	116mm
Label height	5mm min
Cut mode	Cutter and perforator available as accessories
Media roll capacity	152mm outside diameter / 38-76mm insides core diameter
Ink ribbons	25.4mm core, ink inside or outside
Operating temperature	5°C to 40°C
Humidity	+10 – 85% non-condensing
Sensor	Variable position Gap & Reflective (auto. calibration)
Power consumption	Power save mode 1.8W / Typical 45W / Max 100W
Physical characteristics	D: 322mm, H: 189mm, W: 253mm, Weight: 4kg

Interfaces

USB 2.0 High speed device for PC connection at the rear of the printer
 USB master X2 at rear of the printer, and X1 at side of touch screen
 have up to 500mA current capacity. The Touch screen USB port is for
 Service key and USB memory stick only.
 RS232 C 1.200 up to 230.400 Baud rate / 8 Bit.
 Ethernet 10 / 100 Base T, LPD, IPv4, RawIP printing, DHCP, HTTP/
 HTTPS, FTP/FTPS, SMTP, SNMP, TIME, NTP, Zeroconf, SOAP web
 service, VNC.

Ribbon and Product Combination

Ribbon	Product
